

<b>Policy Name</b>	<b>ASSESSMENT POLICY</b>
<b>Policy Number</b>	<b>A002_PO_HE (Academic)</b>
<b>Purpose</b>	This policy states the principles of assessment for student work within Higher Education courses and subjects at Whitehouse Institute of Design, Australia, (Whitehouse).
<b>Scope</b>	This policy applies to all subjects in all accredited Higher Education courses across all campuses and is binding on all students and staff.
<b>Policy Statement</b>	<p>Whitehouse sees learning and assessment as part of a continuous feedback loop: the assessment provides information on what learning has taken place in order to foster future learning. This assessment policy supports learning and teaching practice.</p> <p>Whitehouse defines and develops learning outcomes and assessment criteria to confirm students’ achievements and success at particular award levels as specified by sector standards and the Australian Qualifications Framework (AQF). Assessment measures student performance against stated learning outcomes, to promote learning, progression, improve student attributes, and achieve graduate capabilities. The principles of assessment require that:</p> <ol style="list-style-type: none"> <li>I. standards or levels of expected performance should be described for assessment tasks in sufficient detail that students can improve the quality of their work</li> <li>II. standards should typically be defined in the context of the discipline, course, or level of the subject</li> <li>III. standards should be benchmarked against comparable disciplinary and/or professional standards, with Whitehouse and beyond</li> <li>IV. assessment in each subject should involve at least two types of assessment <b>instruments</b></li> <li>V. assessment methods and criteria are based on academic achievement and align to specified <b>learning outcomes</b> for each subject in Higher Education programs</li> <li>VI. assessment methods include provision of constructive and timely <b>feedback</b> to provide students with a measure of their progress against the stated learning outcomes and feedback to assist in the preparation of future assessment tasks</li> <li>VII. assessment should be <b>sufficient, fair, valid, equitable</b> and <b>objective</b></li> <li>VIII. assessment should be <b>moderated</b> and <b>validated</b> using appropriate methods to ensure parity and consistency in assessor judgements.</li> <li>IX. staff peer review and moderation of assessment tasks should be used to ensure the tasks are appropriate for the targeted learning outcomes, and conform with the assessment policy and procedure</li> <li>X. students should have the opportunity for formative practice or experience on each type of instrument that is used to determine grades. This may include teacher feedback, student peer review or student self-review activities.</li> <li>XI. summative assessment leads to achievement of subject (results) and course completion leading to the issue of a graded Testamur and Transcript of Academic Record.</li> </ol>

	XII. penalties apply for late submissions, non-submissions, academic misconduct, and non-attendance (refer Section 7 of the Procedure)
